

Thank you very much for the beautiful photos. By the way, I wanted to let you know that Fiona, AKA “Black Collar”, is just AMAZING!!!! Definitely the perfect match for our family, it’s been only 4 weeks since she came into our lives and we are already crazy about her. She is growing so fast, 4 months and 2 weeks old now and let me tell you that she is HUGE!!! I have proudly introduced her to most of my friends, co-workers and family and I’ve received numerous compliments regarding her gorgeous and powerful appearance which, TO ME, signifies strength and agility. Everyone says she is the most beautiful Shepherd they have ever seen. As you know we (my son OJ and I) also have a 14 year old male German Shepherd “Sarge” and a 6 years old female cat “Vanilla” and, to be honest, I was a bit worried at first but they became friends right after of the “Introduction Period” If I have to describe her with word... Sweet, loving, affectionate, social, great with kids, fearless, eager to learn, intelligent, protective (already guarding our house), headstrong and very, very, very, active. Did I mention that she is very active!!!! Just kidding, she is fun to be around and the good thing is that she keeps me active too and off the couch. When I’m not working she is pretty much always with me and since she has such a great temperament/personality I love to take her everywhere I go. So you’ll find us walking on the beach or playing in the lake, or just walking in a busy downtown, it doesn’t matter where we are she always seems to have fun. She loves car rides and as a good German Shepherd she climbs in the back seat of my police car.

Thank you very much for an outstanding dog who is now part of our crazy family and I promise to keep you inform.

Oscar Cardenas, OJ, Sarge & Vanilla
